**Journey Forward** is a 501(c)3 non-profit organization dedicated to improving the lives of those who have suffered a spinal cord Injury through an intense exercise program. The latest research has shown that through exercise, individuals with spinal cord injuries can experience greater health, live longer lives, and most importantly gain independence and increase in function. When an individual suffers a spinal cord injury and is required to sit in a wheelchair all day, he/she is no longer able to obtain the benefits that come from the average activities of daily living. At Journey Forward our clients will achieve some of these most basic lifelong functions and benefits. We are able to focus on client goals that can range from regaining lost function to simply receiving the normal benefits of exercise.

**Hudson Home Health Care** is New England’s leading provider of Rehab Equipment. We have 25 RESNA (Rehab Engineer Society of North America) certified ATS/ATP (Assistive Technology Suppliers/Practitioners) in our 7 locations throughout MA, CT, NH, and RI that are personally involved in proper equipment selection. We participate with most if not all, insurance plans .

Hudson shares the philosophy that personalized, caring, and professional service is best delivered at the local level.

Call **1-800-321-4442** for the nearest Hudson Location.
